## WHERE DOES YOUR CANDIDATE STAND ON THE RIGHT TO LIFE?

Elected officials can, in many ways, either support the killing of the unborn, or attempt to protect both unborn babies and their mothers. Locally elected individuals often move up to national leadership positions — and assume influence over these life issues. It is of great importance, therefore, to know the candidates positions on the following questions. Right-To-Life of Louisville mailed a questionnaire, containing the questions below, to every Primary Candidate excluding district judgeships. Below are the responses of those who took the time to reply.

**IF YOUR CANDIDATES' RESPONSES ARE MISSING — CONTACT THEM TO ASCERTAIN THEIR POSITIONS ON THESE VITAL ISSUES. RIGHT TO LIFE does not endorse any candidate. It is our hope that these replies will help you determine who receives your vote.**

THE QUESTIONS:

1. Would you actively support and vote for a Human Life Amendment to prohibit abortion-on-demand and return the right to life to the unborn?
2. Would you vote against the use of public tax monies for elective welfare abortions?
3. Would you vote against the establishment of a tax-supported second-trimester abortion clinic at General Hospital?
4. Would you vote against a so-called "Death With Dignity" bill or any other euthanasia legislation? (a similar bill was introduced in Ky. in 1976 session.)
